

ULD Container Rack

AKS ULD Racks are designed to provide safe, efficient, and organized storage of PMC air cargo pallets when not in operation. Engineered for demanding airport ramp and cargo terminal environments, the racks keep pallets securely stacked and elevated off the ground, maximizing storage efficiency while reducing the risk of damage and improving workplace safety.

Manufactured from robust steel construction and designed for long service life, AKS ULD Racks help optimize cargo handling operations, improve housekeeping standards, and ensure quick access to stored pallets whenever required.

Specification

Overall dimensions 3390 x 2650 x 1533mm

Insight dimensions 3210 x 2470 x 1100 mm

Suitable for Pallets 125" x 96"

Weight 850 kg

Capacity for 25 pallets

Hot dip galvanized surface finish
